WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Tube 484 long, ends square; rings 280 OD at both ends and the middle
Two winding halves of 236, each holds 21 turns of 10 mm rope
End discs 4 mm inside the tube ends, six 50 mm lightening holes
Shaft 30, 664 long, through both discs; weld discs to tube and shaft
48-tooth sprocket on a hub at the -Y end, outboard of the bearing
Two ratchet wheels at the +Y end, teeth facing opposite ways, 4 mm apart
Rope clamp block with a U-bolt on each end ring
Weld in short stitches, turning the drum, to keep it straight
Check: spins true in V-blocks within 2 mm at the rings
