Scale 1:10; looking at the front (along +Y)

**RIGHT VIEW**

Scale 1:10; looking at the right side (along -X)

**WHERE IT GOES**

This part in colour, its neighbours in grey

**HOW TO MAKE IT AND HOW IT FITS**

Four cross members, each a tube with an 8 mm end plate welded on each end
Front and rear cross rails: tube 500, end plates 100 x 40, holes 70 apart
Top tie: tube 500, end plates 40 x 110, holes 74 apart
Anchor bar 40 x 40 x 3: tube 500, end plates 78 x 104, two 13 mm holes
Anchor eye 10 mm plate, 22 mm hole 200 up, welded to the middle of the bar
516 over the end plates; plates square to the tube within 0.5 degree
Drill each end plate with its side frame, clamped, so the holes line up
Check: each member fits between the side frames with no gap over 1 mm
